

# Royal London Rotation Training Hospital of the Year

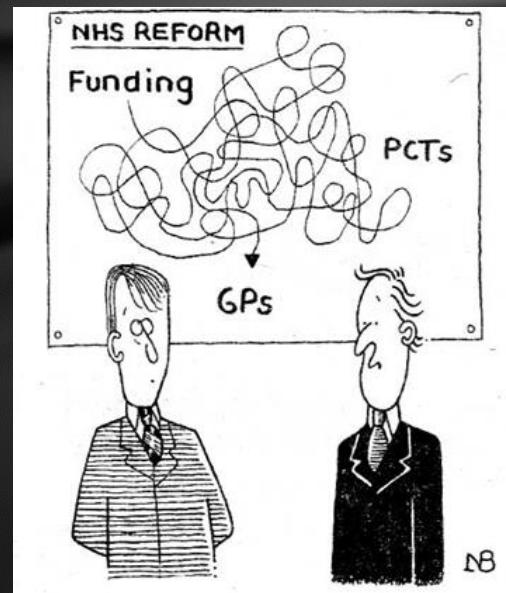

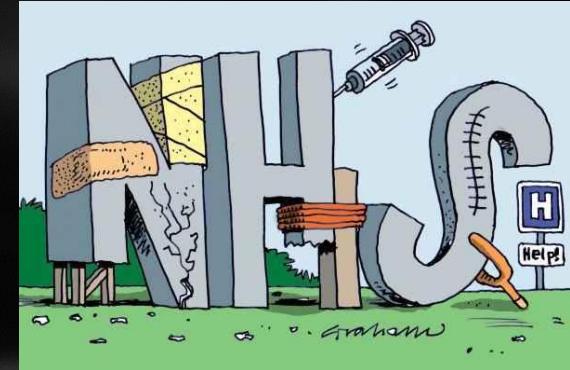

2014

*John Stammers (BOTA Linkman)*

*July 4<sup>th</sup> 2014*

*Acknowledgement: Mr Barry for E logbook data.*

# Issues with Training

Daily Mail

# Issues with Training

- Identify factors trainees associate with good training hospitals
- Survey the rotation
- Highlight hospitals that are providing good training
- Calculate inaugural RL Rotation Training Hospital of the Year 2014.
- Use pilot to gain feedback for the future

# Method

“what do you associate  
with a good training  
hospital”?

# Questions

1. What is your Name? Which Hospital are you working at? Consultant (optional)? Subspecialty?
  
2. Average Number Clinics/week? Do you internally cover other registrar's or consultant's clinics when people are away? Calculated as a proportion of highest to lowest. (max score/10)
  
3. Average Number Operating sessions/week? Calculated as a proportion of highest to lowest. (max score/10)
  
4. How do you rate the educational value of the trauma meeting?  
Excellent (10)      Good (7.5)      Average ( 5)      Poor (2.5)      Pointless (0)
  
5. Is this a good job for deanery core procedures? If so which ones? If not, why? (e.g. time pressure in theatre, many high anaesthetic risk patients, many simple cases like TKRs being referred out for surgery at other centres eg NHS initiative lists).

# Questions Continued

6. Are you given fair opportunity to get to teaching (RLH/RNOH/Addenbrookes)
- Always (10)    Most time (7.5)    50:50 (5)    Rarely (2.5)    Never (0)
7. Are clinics used to provide any educational value?
- Strongly Agree (10)    Agree (7.5)    Indifferent (5)    Disagree (2.5)    Strongly Disagree (0)
8. Number and ratio of cases performed (including STS and STU) since starting in October. Additional details/comments of cases if possible (Is it balanced between trauma, elective, day surgery)
9. Please name one thing in this Job/Hospital that you admired the most & would like other hospitals in the rotation to follow. Is there a consultant in this hospital that you would like to nominate for the best trainer of this hospital. (and why?)

# Questions Continued

10. Would you recommend this job/Hospital to your colleagues/Would you pick this job/Hospital again if you could turn back time?

Strongly Agree (10)    Agree (7.5)    Indifferent (5)    Disagree (2.5)    Strongly Disagree (0)

# E logbook

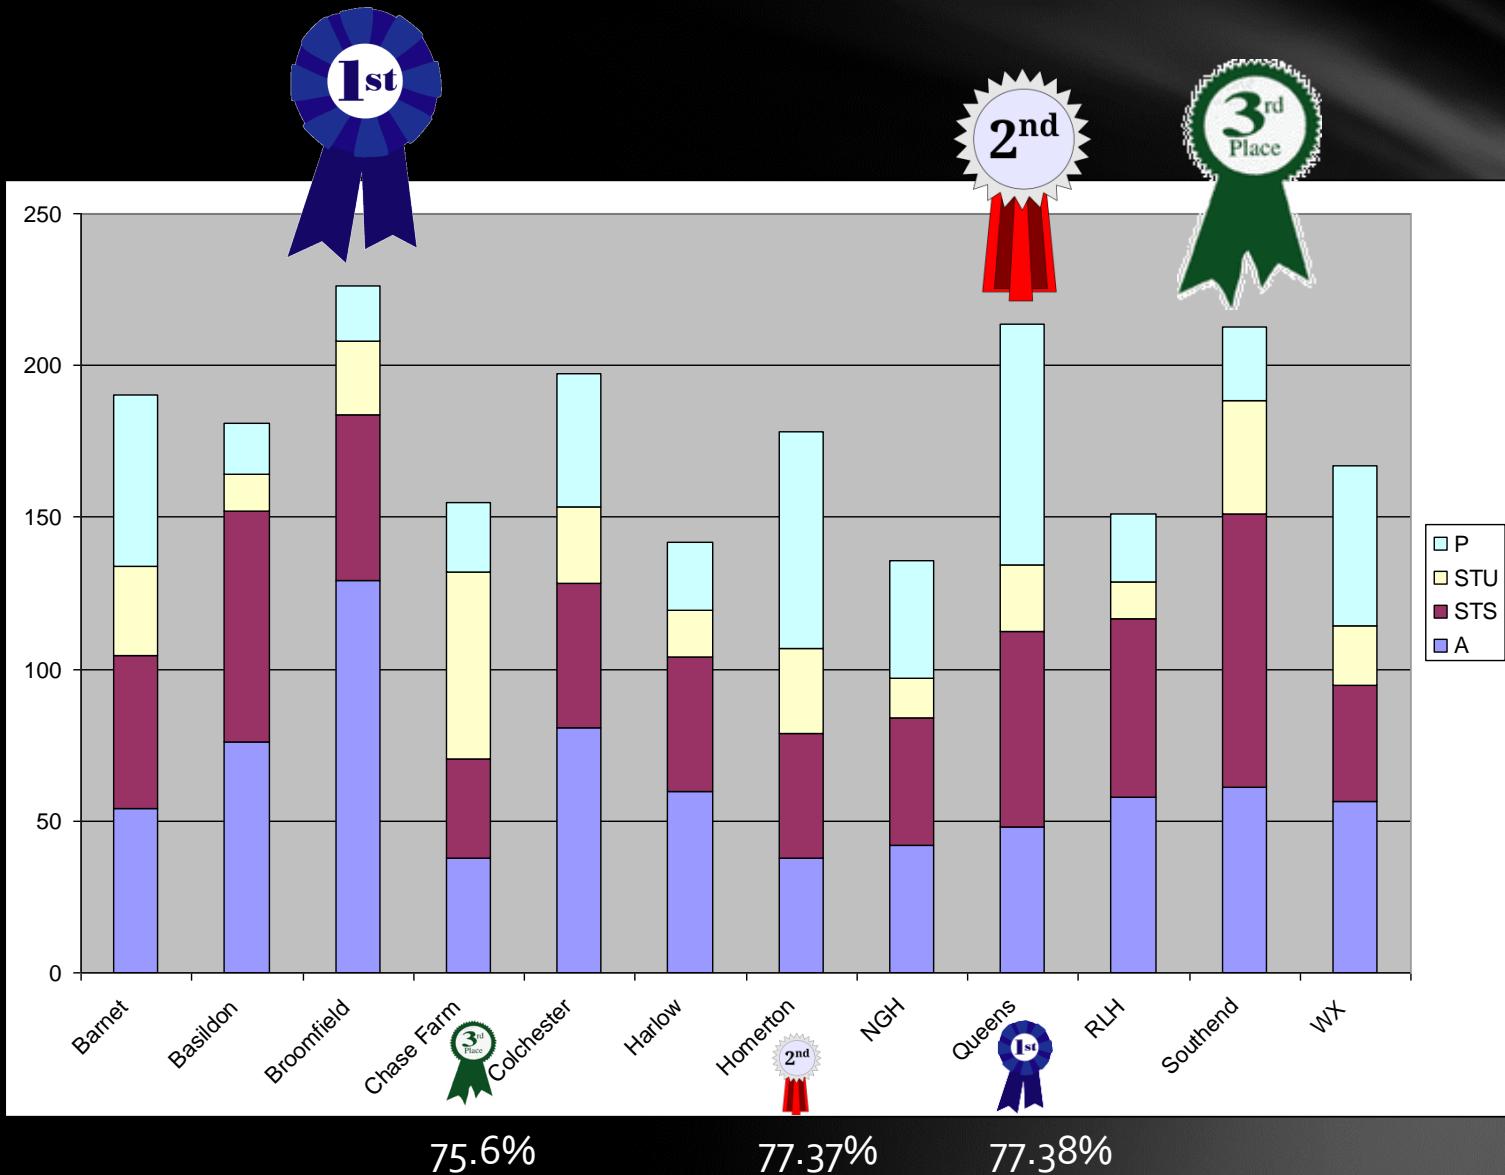

Average of three 6-month periods

- Oct 2012-Apr 2013
- Apr 2013-Oct 2013
- Oct 2013-Apr 2014

Overall Number (Calculated as a proportion of highest to lowest. max score/10)

Percentage STS/STU/Perf to overall numbers (Calculated proportion. max score/10)

# Results-E logbook

# Results Number of Clinics/week

Colchester (2)	1
Basildon (2.5)	2
NGH (3.5)	3
RNOH(3.5)	4
Barnet (3.5)	5
	6
	7
	8

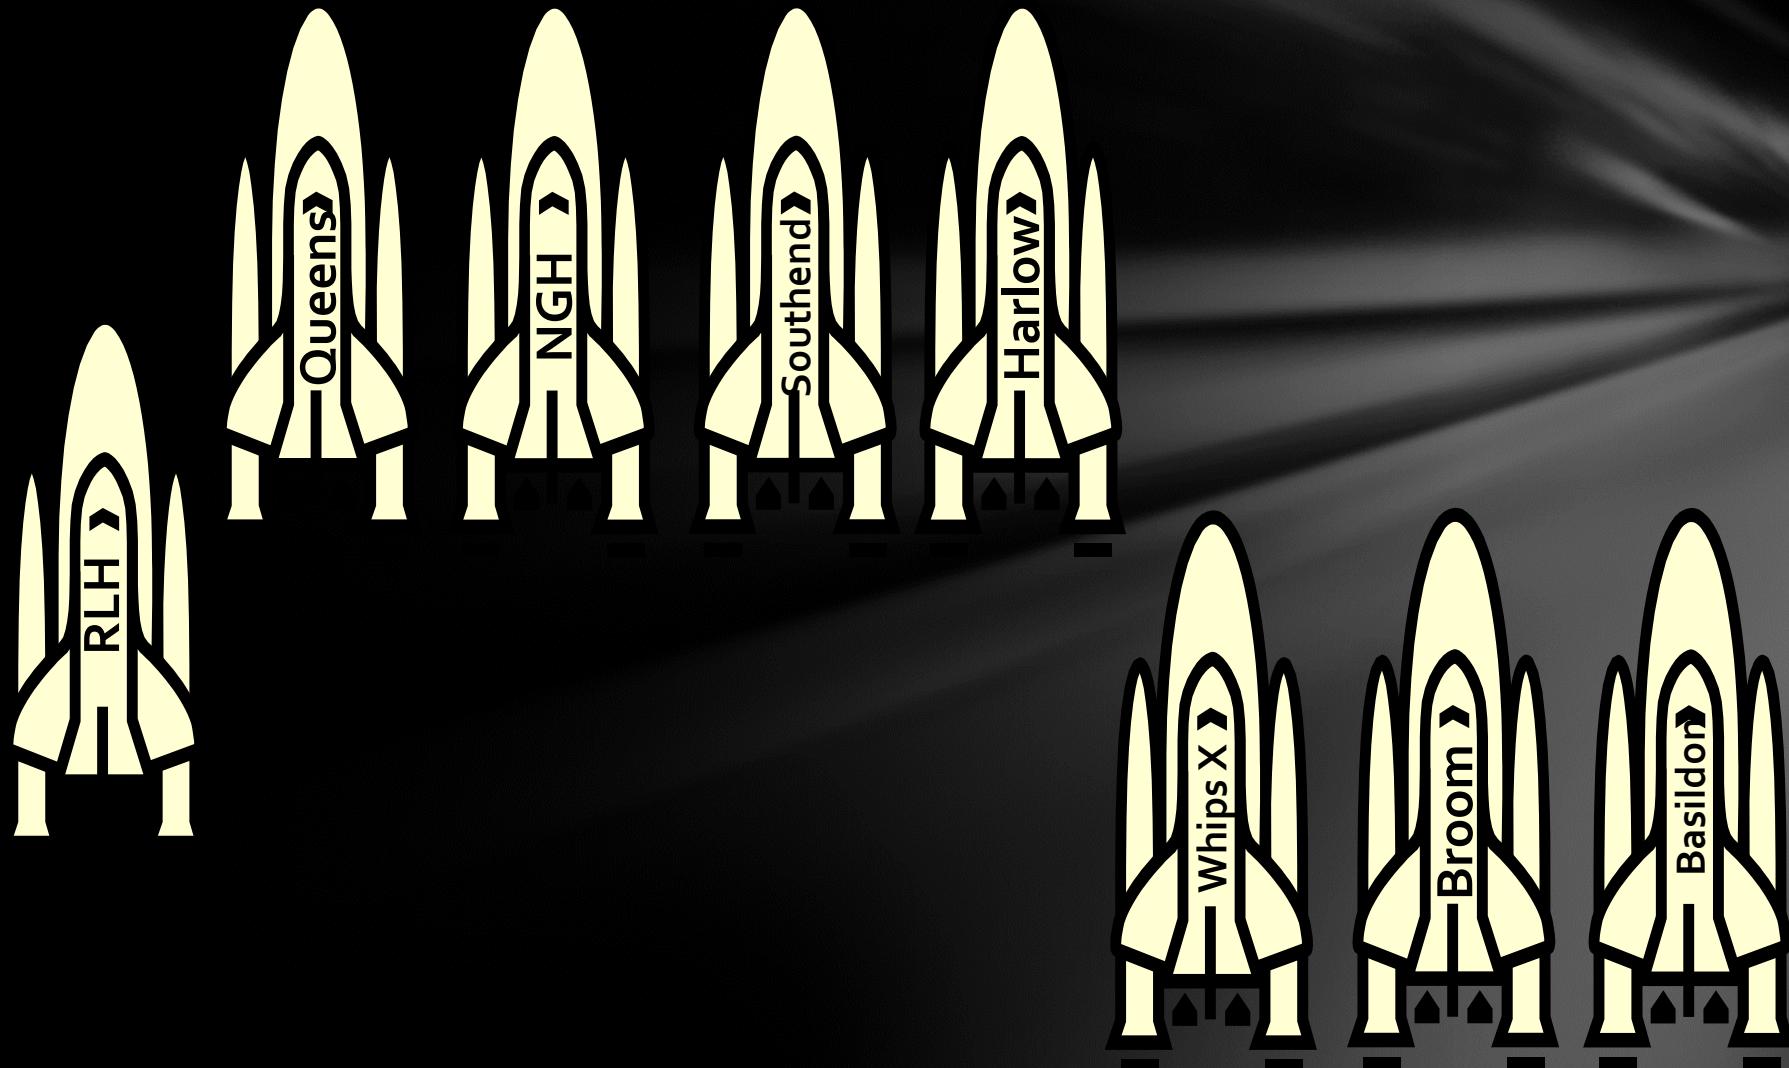

# Results Theatre Sessions

# Results Education Value Trauma Meeting

# Results Attending Teaching

# Results Clinic Educational

# Results: would you come back/ recommend to a friend

**Colchester Queens Barnet**  
(Strongly agree)

## Limitations

Bias 1-2 trainees particularly if allocated less desirable job

- There's no place for a trainee to be given a bad job.
- ?Trainee allocated a consultant not a hospital.

Q 5 Is this a good job for deanery core procedures

- Ambiguous and subjective

- Results will be based on 2 6-month rotations Apr-Oct and Oct-Apr

Q 8 Number and ratio of cases.

- Answers vary depending on time questionnaire filled in.

- Strongly agree-strongly disagree. 10-0
- Use E logbook to assess core procedures

- Replace with E logbook data
