

**The Royal London Hospital
Orthopaedic and Trauma Society
Training Hospital of the Year 2016**

**John Stammers
27th May 2016**

Disclosures

- None

Background

- Started 2014 with an aim to identify what factors trainees associate with a good training hospital.
- Highlight a hospital's training strengths and weaknesses.
- Acknowledge hospitals providing a good infrastructure for training.

“An MDT can be as educational as a trauma meeting”
“The research/publication/audit potential is important”

Logbook data

1. Overall numbers
 2. Percentage STS/STU/Performed to assisted
 3. Number of indicative procedures achieved.
- April 2015-April 2016

Acknowledgements

- Thank you to Mr Barry for collating the logbook data.
- All the trainees for completing their 6 monthly training surveys.

The Future

- “a great training hospital should help trainees pass the FRCS”
- ...your feedback...

- Thank you
